

ASAT Real Science, Real Hope

ASSOCIATION FOR SCIENCE IN AUTISM TREATMENT

7 Reasons to Donate to ASAT

1. Every year, even more treatments are proposed for autism. Parents are often absolutely overwhelmed about what to do and where to turn for good information. ASAT can help parents and other consumers separate the wheat from the chaff.
2. Simply type in "autism treatment" and see what comes up in your internet search. Against a backdrop of ads promising the moon, ASAT uses Google Ad words to help consumers access accurate information about autism treatment.
3. Nearly every penny goes toward spreading our message that science matters as ASAT has little overhead. Board members, Advisory Board members, Externs, and Committee members are all volunteers and ASAT is run by a quarter time Executive Director. They generously provide their time and expertise because they are deeply committed to ASAT's mission.
4. **Science in Autism Treatment (SIAT)** is an information-packed, quarterly newsletter. It is completely free, and with your generous donation we can continue to keep it that way. *SIAT* subscribers include over 11,000 parents, teachers, students and researchers. Your contribution can help us reach 12,500 subscribers by the end of 2015.
5. We continue to look for opportunities to reach out across the world through our newsletter. Currently, we have subscribers residing in over 95 countries, and with your support we can reach over 100 countries in 2015.
6. We maintain a comprehensive website that features a Clinical Corner, a Consumer Corner, interviews, article synopses, book reviews, and more. With your help, we can continue to provide up-to-date information about science-based intervention.
7. Time is of the essence for effective treatment. ASAT can be a guiding light in a long journey of ongoing treatment decisions. Your financial support will enable us to continue to provide information, insights, and strategies to parents and professionals alike.
